

Shively Photo Services

Fast – Affordable – Professional

Individual, Senior Graduation, Couples & Family Portraits

Platinum Package - \$125.00

The session will be approximately 90 minutes to 2+ hours to ensure we capture a good variety of poses and images using a professional digital SLR Nikon™ camera and lenses. Following the shoot, we will upload your images to a private, password protected gallery on our web site where you may review the images and select those for advanced editing such as the glamour/airbrushed look, digital frames, etc. There are separate charges for advanced editing – see below. As soon as the images are finalized, we will upload them to our web site where you may order professional quality prints on a variety of quality papers.

Platinum Plus Package - \$175.00

In addition to everything included in the Platinum package – in today's digital world – we know you may want your own copy of the digital images. This package includes a DVD of high quality, full-size images along with a reproduction license for the personal use of the images for e-mailing, posting to social media sites, editing, resizing, scrapbooking or printing.

Advanced Editing - \$60.00/hour

Examples of optional advanced editing and photo design services include adding digital frames, the air brushed or skin softened look, brightening teeth and eyes, converting images to black and white or sepia, creating collages and custom scrapbook pages as well as a wide range of other creative photographic digital effects.

Wedding and Event Photography

We are happy to provide you with a quote to capture images of your special days such as birthdays, anniversaries, engagements, retirement, graduation or wedding.

General Photography Services

We can provide services to photograph your items, belongings or collections for insurance purposes or for selling items in the newspaper, E-Bay or Craigslist. Contact us for a specific quote.

Slide, Film and Photo Scanning Services

We utilize both a dedicated Nikon™ slide scanner and a high quality Epson scanner to provide digital copies of your images. Services can include utilizing special technology to remove surface defects, scratches and dust, restoring color and minimizing film grain. We provide you with a DVD of the full size, high quality scans and also upload them to a password protected gallery on our web site so that you may order professional prints and products. Contact us to discuss your needs and obtain a quote for these services.
